## Kentucky River WMA Information:

Kentucky River Wildlife Management Area is located in Henry and Owen Counties along both sides of the Kentucky River approximately 21.5 miles north of Frankfort and is owned by the Kentucky Department of Fish and Wildlife Resources. It consists of a total of 1,604 acres of Kentucky River floodplains and associated uplands as well as old fields and oak-hickory forests on hill-sides and ridge tops. The area can be accessed readily from Kentucky Highway 561 in Henry County and Kentucky Highway 355 in Owen County.

Kentucky River WMA has many uses. Hunting, fishing, wildlife viewing, and photography are just a few of the many activities that can be accommodated on the area. Good populations of deer, turkey, squirrel, and occasionally waterfowl, use the area. Rabbits, quail, and dove can also be found on the area. Hunting pressure may be moderate to heavy due to the area's small size and firearms may not be used to hunt deer on Kentucky River WMA.
